March 6, 2014

Mr. Bill Tulloch
28223 Hwy 78
Ramona, California 92065

Dear Bill:

I wanted to take this opportunity to express my thanks for hosting the San Diego Junior Pheasant Hunt last Sunday; my son Matt and I had a terrific time. All components of the day were impressive – from the incredible setting to the professional nature of the volunteers.

Matt shot his very first pheasant, and it was a tremendous learning experience from the *hunting* end – to the *cleaning* end. I believe he is fast on his way to becoming an enthusiastic outdoorsman, hunter and conservationist.

On a personal note, I appreciated the chance to meet some great people who share similar passions. It is my firm belief that the rich, hunting heritage of California and our nation must be preserved, so that life's outdoor lessons can be passed along from one generation to another. Unfortunately, however, there are concerted efforts to undermine the outdoor shooting sports, and I want to do what I can to insure we have a robust community of hunters. That being said, hunters, clubs, etc. often times finds itself at odds with various and sundry state government agencies (such as the Department of Fish and Game), and I would strongly encourage you to use me as a resource, should you need assistance in navigating the bureaucracy of California.

Again, thank you for providing the use of your property for such a beneficial purpose. I am grateful both Matt and I had a chance to attend the hunt, and am hopeful for future opportunities.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Jones".

BRIAN W. JONES
